

Economics

Generation is free,
verification is costly

Buyers cannot observe
quality, so faking pays

FINE pF or PREMIUM ?

Akerlof (1970) ? Spence (1973)
Nash (1950) ? M?kimattila et al. (2025)

Computer science

A per-claim trace file:
source, version, value

A verifier recomputes
and returns pass or fail

CLAIM LAYER

Buneman et al. (2001) ? SLSA v1.2 ? CKAN 2.11

Behavioral science

Excuses raise dishonesty,
so trace should reduce it

But easy checking may
breed over-trust instead

TESTED ON THE FAKE RATE

Shalvi et al. (2012)

needs

shapes

Dashed arrows mark the proposed synthesis. Values are simulated.
