

Economics

Generation is free,
verification is costly

Buyers cannot observe
quality, so faking pays

FINE p_F or PREMIUM d

Akerlof (1970), Spence (1973)
Nash (1950), Mäkimattila et al. (2025)

Computer science

A per-claim trace file:
source, version, value

A verifier recomputes
and returns pass or fail

CLAIM LAYER

Buneman et al. (2001), SLSA v1.2, CKAN 2.11

Behavioral science

Excuses raise dishonesty,
so trace should reduce it

But easy checking may
breed over-trust instead

TESTED ON THE FAKE RATE

Shalvi et al. (2012)

needs

shapes

Dashed arrows mark the proposed synthesis. Values are simulated.
